REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art does not teach or fairly suggest all of the limitations of the claimed invention including a method of manufacturing a stacked power chip resistor that increases the amount of heat dissipated without requiring additional board space: with a step of separating the chip resistors with a glass encapsulant, and with the barriers to mechanically connect the chip resistors to provide long term mechanical stability in a manner resistant to resistive heating.

The Applicants' remarks filed on 10th September 2004 (Cf. page 5, 2nd paragraph – page 6), which are incorporated herein by reference and made a part hereof as though they were fully written, are persuasive to the issue of patentability.

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tim Phan whose telephone number is 703-605-0707. The examiner can normally be reached on Monday - Friday, 9AM - 5PM.
